

CLINTON GLOBAL INITIATIVE

Commitment to Action

WE COMMIT TO TAKE ACTION

to scale the Health Professions Pathway (H2P)—an innovative and industry-recognized healthcare competency-based core curriculum—to 100 additional community college/workforce teams in order to meet healthcare employment needs within their communities. Through this commitment, we will provide core curriculum institutes and technical support to train community college/workforce teams to implement customized competency-based core curriculum and industry recognized stackable credentials for their local healthcare communities.

December 4, 2013

Dr. Marianne Krismer
H2P TAACCT Consortium Director

Dr. O'dell Owens
President, Cincinnati State Technical
and Community College

Dr. Lawra Baumann
